Section 3: School Context

School Context

The section contains a variety of graphs and tables designed to illustrate the context of your school intake.

on the following pages may differ to those held in your school records. All cohort figures exclude E1, E2, N1 and N2 pupils. The data has been extracted from the January 2016 - 2022 school census. Please be aware that for a variety of reasons, some of the figures shown

The LA average figures are filtered to incorporate Primary and Special schools (subsidiary registrations are not included in this figure)

The reports and graphs are split into the following nine sections:

Context Dashboard - Pupil Overview

Cohort Size and Gender

Special Educational Needs (SEN)

Free School Meals (FSM) eligibility

Free School Meals eligibility by SEN Status

Pupils with English as an Additional Language (EAL)

Pupils who are recorded as Other than White British

Intake Profile by IDACI (Income Deprivation Affecting Children Index)

Intake Profile by ACORN (A Classification Of Residential Neighbourhoods)

Note: Data used in this section has been produced using January 2022 Census data and the 2022 Pupil Premium Download available from GIAP.

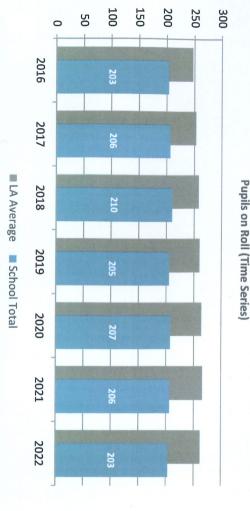

Context Overview Dashboard

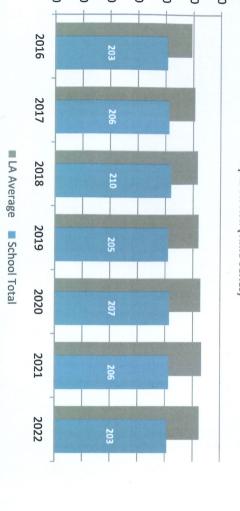

School Context: Cohort Size and Gender Breakdown

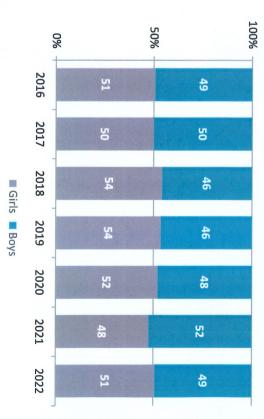

Note: Data used in this section has been produced using the January 2016 - 2022 Census. roll in the Local Authority by the number of Primary schools (open during that year). The shading on the tables signifies the movement of the year group throughout the relevant school years. The report displays trend data for your school's cohort compared with the LA average for each year group from Reception to Year 6. The LA average class size figures are derived by dividing the total number of primary children on

Gender Breakdown (Time Series)

Context: Other than White British Pupils

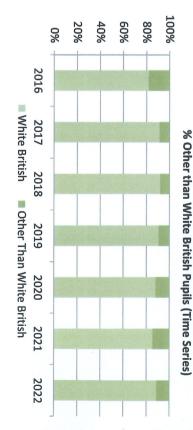

average where applicable. The report displays trend data for your school's cohort of children who are not returned on the School Census as White British for each year group from Reception to Year 6, and comparison to the Local Authority average and National

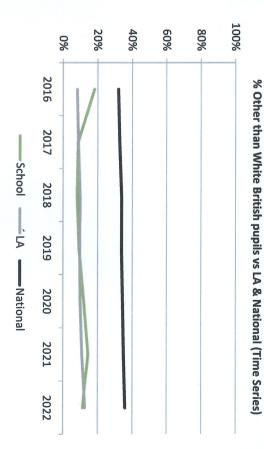

Note: Data used in this section has been produced using the January 2019- 2022 Census. Pupils who are in this category pupils are those who are not recorded as White - British. The shading on the tables signifies the movement of the year group throughout the relevant School years.

Context: Income Deprivation Affecting Children Index (IDACI) Score

Census, pupils are allocated an 'IDACI Score' thus allowing us to differentiate between either schools or groups of pupils. The closer the score is to '1', the more deprived the cohort is. IDACI is the traditional measure of deprivation used by the DFE. All areas of England are allocated a deprivation score using a number of factors (e.g. rates of FSM and Working Tax Credits). By using address details on the School Data used in this section has been produced using the January 2016 -2022 Census. Note: The IDACI score may differ slightly from that shown in your IDSR or other reports due to changes in postcode reference tables. A difference of +/- 0.02 is not uncommon.

% of Girls/Boys by IDACI Decile

Context: ACORN

ACORN is an alternative way of examining the profile of a school's intake. ACORN is a commercial dataset produced by CACI Ltd. The data is available for all children at postcode level and allocates children to one of either five ACORN Categories (dependent upon where the child lives as per the School Census). The dataset itself is built using commercially available data (such as loyalty card information, spending patterns and credit data).
